[grounded]; balance_sheet_cash; XBRL CashAndCashEquivalentsAtCarryingValue [grounded]		INSUFFICIENT_EVIDENCE			[cash_flow_tie_out] cash_flow_tie_out not reconciled: restricted-cash disclosure was detected, so the cash-flow ending cash (which may include restricted cash) and the balance-sheet unrestricted cash line are not expected to be equal. A human should reconcile them.

Every row is a claim the deterministic verifier already ruled on. This document is a faithful transcript of those rulings for audit retention — it does not re-decide anything.
